MEMORANDUM

To: All Insurance Companies and Insurance Producers
Transacting Business in Wyoming

FROM: Ken Vines, Insurance Commissioner

DATE: September 18, 2009

RE: Guidance Regarding use of the NAIC/NIPR Attachments Warehouse
for the Electronic Filing of Insurance Producer Licensing Documents

Purpose

The purpose of this Memorandum is to advise all insurance companies and insurance producers transacting business in Wyoming that the Wyoming Insurance Department will immediately begin to accept documents and notices submitted on behalf of insurance producers through the NAIC/NIPR Attachments Warehouse, which will allow for the electronic filing of insurance producer licensing related documents.

Attachments Warehouse

The Attachments Warehouse is a secure regulatory database which electronically receives, stores and shares with the states licensing documents that are submitted with respect to applications and/or renewals of insurance producer licenses through the National Insurance Producer Registry (NIPR), a nonprofit affiliate of the National Association of Insurance Commissioners (NAIC). If additional information in the form of documentation is required by the Wyoming Insurance Department with respect to an individual producer licensing transaction, this documentation may be submitted via the Attachments Warehouse.

Notification and Reporting of Actions

The Attachments Warehouse may be used to allow insurance producers to satisfy their regulatory requirements for the notification and reporting of administrative and criminal actions to the insurance commissioner pursuant to Wyo. Stat. § 26-9-216. Insurance producers may send the required notification and documents to the Attachments Warehouse electronically in lieu of faxing or mailing to the Wyoming Insurance Department.

The Wyoming Insurance Department is now accepting the electronic notification and reporting of actions submitted electronically to the Attachments Warehouse. Effective immediately, the Department will recognize that the reporting of the action to the Attachments Warehouse, the
